

Anthony Mugerwa are my names and am aged 23years. From childhood to date, I have been living at Daughters of Charity Kiwanga Orphanage as my only home. People say I was brought here when I was one week old.

I know the late Sister Rose Mystica Muyinza as my mother and my everything and am still mourning her death upto now. It is like when she founded Daughters of Charity she founded me! Out of her passion and love for humanity I was given a chance to live and grow.

I had my Primary Education from Mother Kevin Primary School but I had academic weakness throughout my Primary so I joined a vocational program at Kiteredde and studied carpentry and joinery.

After my course, I was automatically scraped off the program of Children of Uganda and I did my level best to hunt for jobs with odd jobs inclusive but no one could take me! I needed to survive, to get what to eat, medicine, clothes and a clean bed but nothing! I realized that being a job seeker is the worst thing ever and dream of owning my own carpentry shop but with no capital to pay the rent and purchase the machines, all is impossible.

Please help me acquire the start-up capital to start my own carpentry shop, to be able to take care of myself, employ others and also help the needy in the society. God be with you.
