

I am Innocent Aketch who is 22 years and was brought up by an orphanage, Daughters of Charity. I joined Daughters of Charity after the death of my family when Kony's rebels attacked my family in December 1998 where majority of my family members and kinsmen perished.

I started my primary education then at Mother Kevin primary school which I completed in 2006 and joined St. Johns Senior Secondary School. After one year, I was shifted to Mbuye Farm School where I studied for two years and forced to join a vocational program without even giving me a chance to first sit the Uganda Certificate of Education exams (Senior 4).

I did catering and hotel management at St. Elizabeth Mengo, this was not my choice of profession but I had no option since it was the decision of Children of Uganda program. I was told if I wasn't accepting their decision, I should go face my stepmother to support me which she couldn't do since we lost all we had during the Kony war in Northern Uganda.

Since then, my life became a mess. I want to go back and finish junior school, graduate at high school to do computer science at University that I get a good job to help others in Gulu who lost everything to Kony's war just like me. Please help me to be in position to help others. PLEASE
